OPTIMUS TECHNOLOGIES NAMED CLEANTECH OPEN 2017 PARTICIPANT

Pittsburgh, PA – Optimus Technologies is pleased to announce it has been selected as a participant in the 2017 Cleantech Open Accelerator Program, which commences with a National Academy on June 26th and 27th in Boston, MA.

This year, Cleantech Open will have 31 teams participating in the Northeast region of the accelerator program. This year's class includes representatives from all eight Cleantech Open categories. Learn more about [the 2017 cohort here](#). Cleantech Open's Accelerator Program gives entrepreneurs and startups focusing on the development of clean technologies a chance to accelerate their business development process through access to mentorship, training, and visibility. Upon completion of the program, participants will showcase their service(s) and/or product(s) and will have the opportunity to compete in a pitch competition.

"We are honored to be chosen to participate in the Cleantech Open. It will be a great privilege to learn from the program's world-class mentors and exciting to share ideas with fellow companies who are developing green solutions for our planet's economic and environmental challenges," said Alex Keim of Optimus Technologies.

About Cleantech Open

Cleantech Open runs the world's largest cleantech accelerator. Its mission is to find, fund, and foster entrepreneurs with big ideas that address today's most urgent energy, environmental and economic challenges. A 501(c)(3) not-for-profit organization, Cleantech Open provides the infrastructure, expertise and strategic relationships that turn clever ideas into successful global cleantech companies. Since 2006, through its one-of-a-kind annual business competition and mentorship program, Cleantech Open has enabled 727 clean-technology startups to bring their breakthrough ideas to fruition, helped its alumni companies raise over \$1B in external capital, and created thousands of green-collar jobs. Fueled by a global network of more than 1,500 volunteers and sponsors, the Cleantech Open unites the public and private sectors in a shared vision for making America's and the world's cleantech sectors a thriving economic engine. About Optimus

Founded in 2010, Optimus Technologies is the market leader in high performance biodiesel conversion solutions that utilize biodiesel and diesel for medium and heavy-duty truck fleets. With Optimus, fleet operators have a simple way to significantly reduce fuel costs and emissions, while addressing renewable fuel targets. Optimus was built on the vision and the knowledge that other alternative fuel solutions are prohibitively expensive and do not provide the same results as biodiesel. For more visit:
